

Reverse Osmosis Watermakers

Sailor Compact

Sailor Compact is a fully automatic Reverse Osmosis watermaker mounted in a compact stainless steel frame, can easily fit in small spaces available aboard sailing and motorboats. Thanks to best quality components and high reliability the system is first choice for all kinds of vessels with modest fresh water demand.

Also available as Slim configuration -with separate components- and MD -L frame-. Standard automatic pressure regulation. Low noise operation. No operator requested.

The electronic control panel allows the simple control of all functions.

SAILOR COMPACT 600

SAILOR COMPACT 1500 + TOUCH-SCREEN DISPLAY

4.3" touch-screen LCD display -optional-

The watermaker can also work in manual mode. Automatic membranes washing cycle when the watermaker stops as optional. Light and resistant high pressure vessels made in carbon fibre, certificated by TÜV.

Optional remote controls available: LCD panel, by on board PC, by 4.3" touch-screen LCD display and also by GSM or SAT link, for management, programming, diagnosis and maintenance.

For the complete list of available accessories see the pages 16 and 17 of this catalog.

EASY USE: FULLY AUTOMATIC
LOW NOISE OPERATION
ONE-TOUCH TECHNOLOGY
